

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

James Sheridan of Proctorsville was severely bitten Monday by dogs while trying to separate two of them which were fighting.

Ray Edwards injured his right hand and arm so badly in a threshing machine cylinder at a Proctorsville farm Tuesday that his arm had to be amputated at the elbow.

At a special village meeting in Swanton Wednesday the town voted to issue bonds to the amount of \$17,000 to pay for further development of the electric power at Highgate.

The entire plant of the Backus Heating company, consisting of buildings, tools, patterns, etc., was sold at public auction Wednesday to W. C. Clement of Rutland for \$3,650.

As Frank Martin of Proctorsville was standing on the running board of his auto, while backing the machine, he lost his balance and fell to the ground, the auto, with three occupants, crashing into a tree. No one was hurt.

Mrs. Anne Conway Brothers, wife of Alfred F. Brothers, proprietor of the depot restaurant at Bellows Falls, died suddenly Wednesday of tubercular trouble. She was married June 14 to Mr. Brothers, who is well known to many traveling men who have Vermont as their territory.

A Sharon resident has a book, entitled, "The Triumph of Mercy," on one of the pages of which is written, "Joseph Russell, His Book, 1795." "The Epistle Dedicator" for the book, as it is called, was written by Samuel Lee, Feb. 8, 1796. The book has 12 chapters and 186 pages and every printed word is clear and distinct. It has a solid leather binding.

A giant oak tree on the Richardson farm in South Vernon, felled by a bolt of lightning Aug. 23, was a landmark in the vicinity. Tradition shows that the tree was a good-sized one over 150 years ago and that two Indians, caught beneath it by the farm's owner at that time, Ensign Stratton, were killed by him with a blade which he happened to have in his hand. The tree measured over 27 feet in circumference.

Y. M. C. A. WORK AT EAGLE PASS

Is Playing Important Part in Army Life of Vermont Troops.

To increase the capacity of the army Y. M. C. A. building with the 1st Vermont infantry, in camp here at Eagle Pass, Tex., and to add to its attractiveness, a thatched porch 12x24 feet has been built across the front and the electric lights extended, so the porch is available in the evening for games and reading.

The inside of the building has been made more homelike and attractive and a lot of waste space has been utilized by the building of racks along the sides, just above the writing desks, in which magazines and papers are kept. Two large double-faced blackboards, constructed of wall board and painted black for the purpose of posting notices and baseball scores, have been added recently.

A piano has been purchased by contributions from the officers and company funds, through the efforts of the chaplain, and has been placed in the building.

Quite a bit of interest centers around two large screened cages in our building in which are gophers, horned toads, turtles, crawfish, little rabbits and a bird. Watching the antics and habits of these more or less happy families and feeding them, furnish no small amount of diversion for the men.

A pajama party was held recently and during the evening between 400 and 500 men were in the building; most of them were in regulation evening attire—pajamas with which the Vermont men were well supplied, through friends in the old Green Mountain state.

During a recent terrific wind and rain storm at Eagle Pass, when many tents and a mess hall of the 1st Vermont infantry were blown down, the Y. M. C. A. secretary, Harry H. Brown, kept open house all night, and before morning the building was the refuge of nearly 200 men. Lights were kept on inside and out; the piano was pressed into service constantly from 2 a. m. until 7 a. m., and half-cad, soaking wet, mud-bespattered men sang heartily all night to keep up their own spirits and those of more morbid dispositions. Much of the equipment and many of the magazines were water soaked and muddy because of sections of tar paper blowing from the roof, but for all that the building was by far the driest and cheeriest place in camp, and when at noon the next day the shutters were opened and lights turned off, for the first time since early the evening before, it seemed almost as if history had repeated itself and once more the ark had rested on Mt. Ararat.

A mother dog and her seven little day-old pups, which were imprisoned all night under the wet, muddy canvas of a fallen tent, were brought to the association and it has been their home ever since.

Our large American flag, 7x12 feet, purchased for the inside of the building by the Vermont state Y. M. C. A. committee, was used recently to cover the gun carriers and oars at the time of the funeral Private Henry Lawton of St. Albans.

A checker tournament, to determine the champion of each company, then of battalions and finally of the regiment, is being played off.

AMUSEMENT NOTES.

Howe Shows Hawaii and West Point Tuesday, Sept. 12.

Sitting comfortably in a theatre chair the spectator of the new Lyman H. Howe Travel Festival will view a most remarkable natural phenomena at the opera house on Tuesday, Sept. 12. There will not be the nerve-racking experience of the photographer who made the films but the scene will be just as real and its interesting character just as impressive to the Howe traveler in the theatre as it was to the Howe picture-maker on the edge of the crater of an erupting volcano in Hawaii.

With his camera at the very summit of the crater the photographer obtained "close-up" views of the molten lava in its fiery boiling state. The pictures were made at midday and midnight so that one may see the vivid contrast that nature provides. These are the first reproductions of the kind in animated scenes and they mark a new point of realism for Howe presentations.

Other interesting features of Mr. Howe's new program will be journeys through the Hawaiian islands, Spain, Norway and a reproduction of the day-to-day life of the U. S. military academy at West Point. The latter includes not only the strenuous and varied activities of the splendid corps of cadets at work and at play, but also the beauty of the settings and buildings of which there are 160 within 2,336 acres. But what grips spectators most are the tactical exercises in attack and defense in extended as well as close order and in advance and rear guard action. Then, too, further diversity is added to the scenes by outpost drills, the tactics of light artillery, coast artillery and siege artillery companies supplemented by machine gun and mountain gun drills, target practice, military bridge building, etc.—adv.

Housework Is a Burden

Woman's lot is a weary one at best. But with backache and other distressing kidney ills, life indeed becomes a burden. Doan's Kidney Pills have made life brighter for many Barre women. Read what Mrs. Nelson says:

Mrs. N. M. Nelson, 20 Merchant street, Barre, says: "A severe attack of grip left my kidneys weak. The slightest housework tired me, and if I was on my feet for an hour or so I had sharp pains across my back. I paid out over one hundred dollars for doctors' treatments and medicines, but got no relief and became discouraged. I finally used Doan's Kidney Pills, and they removed the trouble. I have never been without a supply on hand since."

Price, 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Nelson had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.
